The Water Mains. To the Editor of THE BEE: Permit me through the columns of your valuable paper to draw the at- treme, but neighboring farmers, who tion of the citizens of Omaha to a gathered at the spot, could do nothing ine manufactures should have protecmatter of the greatest importance connected with the waterworks now under construction. I am, I confess. not fully acquainted with the whole of the plan, nor will I here try to criticise it as a whole, but only such parts thereof as I have had opportunity of witnessing. In the first place, for a city the size of the and containing a population of 40,000 inhabitants with The tariff commission resumed its sesthe prospect of a very large increase sion to-day. Assistant Secretary being added, I cannot help expressing of the Treasury French gave his views my honest conviction that a great as to the importance and necessity of mistake has been made in selecting the creation of a tribunal for the pipes of such small calibre as those speedy termination of disputed questhey are employed in laying now, and if the company intended that these toms cases. A circular from Secreworks were to be a permanent benefit tary of the Treasury Windom to the to the city I venture to-day most de- chamber of commerce and boards of eidedly that in less than four years trade of the country showed there they will find they have made a pure | were 18,000 customs suits pending miscalculation. They seem to me to This of course did not represent so have lost view of the fact that cast many distinct questions. On the confrom the moment the water is allowed to enter them the process of oxy-rapidly diminishing the capacity, portation. Owing, however, to the thereby soon rendering them death of President Garfield, and the almost useless for the purposes they change of the cabinet the plan for a were intended. The pipes now being tribunal had fallen through. It had laid are not more than just about half been opposed also by lawyers who the size they ought to be and common were interested in these litigations, sense will teach us, or rather enable and who represented it was a new us, to realize the fact that a large city scheme of the treasury department to like this, and constantly growing get advantage of importers. When larger, can never be adequately sup the bill for the creation of such a

piled from a small pipe constantly court was introduced into the senate growing smaller, just the reverse of what it should be. And then again, in the course of events, after the pipes of the treasury to wrong importers in re laid and people begin to use the some way or other. In point of fact vater in their houses and otherwise the scheme was for the benefit of imhe pipes will be tapped at, in all porters instead of being for the pur probability, thousands of places pose of giving new powers to the through the city, which as a measure treasury, it was purposing to part with of precaution during the severe cold all power which it now had over the \$10 weather in winter time, must be kept subject. Everybody in the departrunning in order to prevent freezing ment desired to get rid of these conap, I should like to know where, in troversies and labor. One plan case of fire, the water could be pro- was to arrange the matter very cured? certainly not from the hydrants in anything like sufficient quantity, with half or two-thirds the taps runing water to waste from a seven or ment be final. Another plan (and one ight iach pipe, and if the citizens which he himself favored) was creating cally desire that its usefulness in a customs court, composed partly of cases of fire be preserved the only way they can possibly contribute to that lawyers; members of the court to read is not to use the water in your ceive \$5,000 or \$6,000 a year or more; houses and thus preserve unimpaired to hold their appointments permathe full force necessary for the extin- mently and to sit in New York. He guishment of fire. In the present would have the decision of that court state of the water it is wholly unfit for final and unappealable; one objection domestic use, and to which I will made to that plan was its expense, but

Respectfully,
A. Boking, ngineer. Jesse James' Slayer.

CHICAGO, August 1 .- Bob Ford,

again draw your attention soon

who killed the notorious outlaw Jesse proposition was to give jurisdiction James, and his brother Charlie Ford over all of these questions to the court are in the city, enjoying life in of claims. That would certainly be a spending the \$10,000 which they received for ridding the country of the tem. This was a very important matoutlaw leader. In an interview, in ter, and he hoped the tariff commiso-night, they said they would stay make some definite recommendation here about a week and then go to on the subject. Passing on to the Cincinnati. Bob Ford says Frank sugar question he gave a history of the ames was in good health when he law fixing duties, standard of color ast saw him. He does not believe and test of value and taxation. How Frank will ever attempt to reorganize that standard had been falsified and

ON TO THE PACIFIC.

polariscope is adopted by the whole

trade as a just criterion of the value of sugar, how objection was made by

ot sugar, how objection was made by the sugar importers to its being adop-ted by the treasury department, and how high qualities of raw sugar now come in at low rates, being artificially discolored. There has never been a time, he said, when sugar im-porters tendered to the com-

mittee on ways and means any agreement as to the best mode of

collecting duties on sugar. They could

not agree among themselves. He

suggested perhaps the best way out of

the whole sugar difficulty would be to apply an ad valorem system to it. There were practically two questions

before the commission, one was whether tax on sugar should be low-

ered, or increased, or retained; the other was how the different grades of

sugar should be graded and ascer-

tained. Sugar now paid the largest amount of revenue to the government. The amount for the fiscal year

ending June 30th, 1881, was over forty-eight million dollars, and that

for the last fiscal year would probably

After an hour's recess the commis-

sion gave a hearing to John D. Dix of New York. He said that in 1862, when

he sent for representatives of the drug

and that they must put the figures as

high as possible, promising that as

soon as the warnecessities passed away

he would use his influence to have the

tariff on drugs reduced. They had so for fifteen years; he (Dix) had felt personally injured by the fact that neither Morrill nor anybody else

ing interests made an argu-

ment in favor of placing jute butts and iron cotton ties on the

Commissioner Oliver-"Does not

the article of cotton ties pay less duty

than any article of manufactured iron

Ranlett-"I believe so. It is 35

per cent ad valorum. I also ask that manilla and sisal (or Mexican hemp)

and argentiferous ores be put on the

LONG BRANCH, N. J., August 1,-

The tariff commission pass Monday and Tuesday next in New York ob-

serving the practical workings of the

custom house.

Communications were received to-

day from H. H. Stevens, late mana-ger of the Kentucky river mills,

Frankfort, Ky., recommending uniform duty on of 50 per cent on all vegeta-ble fibres, such as flax, jute, hemp, etc., and that the machinery for the

manufacture thereof be placed on the

free list; from R. A. Robinson & Co.,

chemists, Louisville, Ky., in favor of discriminating duties on sugar, wool,

cotton and woolen fabrics, iron, etc.,

but against the present excessive ta-

riff, suggesting plate glass, an infant branch of manufacture, should be reasonably protected and that genu-

At the afternoon session Danford

Knowlton, of New York, obtained a

hearing on the sugar question and

advocated I the polariscope test. He

also proposed a specific duty of 2 cents a pound on all sugar. The com-

The B. & M. Railroad Beginning to Move Over the Moun-

Seeking a Practicable Route.

Freight Trates on the Lake Shore Road.

Several Lives Lost and the Wreck Burned.

On to the Pacific

pecial D spatch"to Tun Bun. DENVER, August 1 .- The Tribune notices the rumor that the Chicago, exceed fifty million dollars. Burlington & Qainey road, which now has direct connection with this city, contenplates the construction of a wide gauge road westward from here, Morrill was getting up his tariff bill up Chicago creek, following a direct route to the Pacific, and which will route to the Pacific, and which will trade, (himself among the number) lessen the time from ocean to ocean and told them to prepare figures for thirty-six hours. Surveying has been the taxation of drugs and chemicals, done through the town and up Chicago creek, but the surveyors are profoundly reticent when questioned as to the object of the survey.

The Colorado Pool-

pecial Dispatch to THE BEE, Boston, August 1 .- The president of the Burlington & Quincy and vice-president of the Union Pacific railway, with counsel, and a number of both directories, held a conference end. Dix was requested to send to here with reference to the Colorado difficulty. Another meeting will be held Wednesday with President Dillist. E. L. Randall, representing lon in attendance. In the meantime New Orleans cotton exchange and also both parties have forbidden any cutting of rates on the lines.

Destructive Collision of Trains.

pecial Dispatch to Tun BRE. CHICAGO, August 1.-The Journal's South Bend, Ind., special says two trains collided on the Lake Shore railroad just east of there this morning. The cars to the number of sixty were piled up on the engines, and, taking fire, burned up. The ongineers were buried under the debris, but were rescued just before the flames reached them. There were some tramps on the train, and four of them insist that seven of their comrades are in the burning mass.

The loss is estimated at \$150,000. The disaster seems to have been the result of criminal carelessness. The Inter-Ocean's South Bend special says the accident was owing to a failure to deliver the train dispatcher's orders to the east bound train to sidetrack at Palmer. Both traing were running forty miles an hour through a heavy feg. Charles Stanton and William Herring, the two engineers, both have their legs broken and are injured internally, and the former had an arm literally cooked by the steam. The cries of the tramps in

J., August i .-CHICAGO, August 1. - Mr. J. J. Potter, general manager of the Chicago, Burlington & Quincy railway, returned from Denver yesterday. Mr. Potter says crops in Nebraska, including corn, are excellent. Corn in Iowa and Illinois does not look so well, but has greatly improved during the past week or two, and with continued good weather there will be a much better yield than has been expected.
